## Instructions

You must not use a calculator to answer any questions in this test.

### Questions and answers

You have 30 minutes to complete this test.

Work as quickly and carefully as you can

Put your answer in the box for each question

All answers should be given as a single value.

For questions expressed as common fractions or mixed numbers, you should give your answers as common fractions or mixed numbers.

If you cannot do a question, go to the next one.

You can come back to it later, if you have time.

If you finish before the end, go back and check your work.
